

THE PANDEMIC and the FUTURE OF W[→]ORK

Where ideas work

Refraction

Definition: Deflection from a straight path undergone by a light ray or energy wave in passing obliquely from one medium (such as air) into another (such as glass) in which its velocity is different

“The report of my death was an
exaggeration.”

-Mark Twain

Space: the final frontier

“If you do not manage culture,
it manages you.”

-Edgar Schein

This isn't just an HR problem.
